

Index of Authors

Volume 73, 1989

(The numbers followed by P refer to abstracts from Society Proceedings)

- Abbamondi, A.L., 38P
Abramovitz, J., 45P
Achiron, A., 32P
Adams, D., 60P
Adams, R.W. and Burke, D., Deficits of thermal sensation in patients with unilateral cerebral lesions, 443
Agardh, C.-D., 83P
Agre, J.C., 14P
Aichner, F., 39P
Aksamit, A.J., 66P
Alaimo, M.A., 41P
Alba, H.A., 10P
Albers, B.A., Put, J.H.M., Wallinga, W. and Wirtz, P., Quantitative analysis of single muscle fibre action potentials recorded at known distances, 245
Albers, J.W., 4P
Aldridge, B., 61P
Alfarano, M., 19P
Alon, M., 21P, 34P
Alter, M., 29P
Alvarez Amador, A., Valdés Sosa, P.A., Pascual Marqui, R.D., Galan Garcia, L., Biscay Lirio, R. and Bosch Bayard, J., On the structure of EEG development, 10
Alvarez Vadiño, E., 91P
Amer, G., 91P
Amin, D., 64P
Amin, D., see Binnie, C.D., 403
Aminoff, M.J., Intraoperative monitoring by evoked potentials for spinal cord surgery: the cons, 378
Anciones, V., 91P
Ancrì, D., 51P
Ando, H., 78P
Ando, K., 78P
Andrew, C.M., 60P
Andrew, C.M., see Besag, F.M.C., 157
Andrews, H., 62P
Andrews, M., 45P, 67P
Andy, O.J., 45P, 67P, 68P
Archibald, S., 20P
Arends, J.B.A.M., 98P
Arnason, B., 22P
Arnetoli, G., 37P
Arpaia, J.P., Isenhardt, R. and Sandman, C.A., A characterization of a single-trial adaptive filter and its implementation in the frequency domain, 362
Arrigo, A., 38P
Arthuis, M., 52P
Artieda, J., 87P
Åsbrink, E., 84P
Ashby, P., 22P
Askenasy, J.J.M., 29P
Attias, J., 34P
Avrahamy, E., 36P
Baba, A., 77P
Baba, M., 71P, 75P
Badr, G., 82P, 83P
Badry, F., 57P
Bajc, M., 82P
Baldy-Moulinier, M., 49P
Ballantyne, J.P., 23P
Bannister, R., 61P
Barbeau, H., see Fung, J., 233
Barbour, K., 15P
Barlow, J.S., 42P
Barrasa Benito, J., 89P
Barron, S., 35P
Barry, D.T., 22P
Bartelli, M., 40P
Barth, D.S., Baumgartner, C. and Sutherling, W.W., Neuro-magnetic field modeling of multiple brain regions producing interictal spikes in human epilepsy, 389
Barthelmebs, M., 50P
Baruzzi, A., see Tinuper, P., 117
Bastuji, H., 51P
Battaglia, A., 37P, 38P, 60P
Battista, H.J., 57P
Bauer, G., 39P, 40P, 56P, 57P
Bauermeister, W., 20P
Baumgartner, C., see Barth, D.S., 389

- Baysal, A.I., 16P
 Beacham, S.G., 41P
 Belaidi, M., 49P
 Bello, G., 87P
 Benke, T., 39P, 40P
 Benna, P., 39P, 40P
 Bental, E., 35P
 Bentin, S., 35P
 Bercovici, J.P., 51P
 Beresford, H.R., 6P
 Bergamasco, B., 39P, 40P
 Bergonzoli, S., 38P
 Bernier, J.P., 7P
 Bernstein, L.P., see Towle, V.L., 419

Index of Subjects

VOLUME 73, 1989

(Abstracts from Society Proceedings are not included)

Action potentials

- motor unit firing and neuromuscular disorders, 215
- single fibre APs recorded at known distances, 245

Adaptative segmentation, ERP mapping and visual perception, 507

Afterdischarge propagation, 172

Age

- alpha rhythm frequency in early stage Alzheimer, 427
- automated rat sleep analysis, 64
- brain potentials in a memory-scanning task, 41
- presaccadic spike potential and aging, 549

Alpha rhythm

- alpha rhythm frequency in early stage Alzheimer, 427
- EEG spectra following ethanol, 179

Alzheimer's disease: early stage and alpha rhythm, 427

Ambulatory monitoring: a new spike and wave monitor, 157

Amygdaloid kindling and sleep in cats, 254

Anaesthesia: BAEPs in squirrel monkey, 532

Antidepressant drugs: spontaneous and evoked EEG, 188

Artifact elimination in EEGs, 72

Attention

- ERP mapping and visual perception, 507
- selective attention and BAEPs, 557
- sleep and attention in normal young men, 124

Audition and brain potentials in a memory-scanning task, 41

Auditory brain-stem potentials

- BAEPs in squirrel monkey, 532
- EEG and EP study of locked-in patients, 419
- selective attention and BAEPs, 557

Auditory neuromagnetic response location, 499

Auditory evoked potentials

- central conduction time in locked-in syndrome, 552
- cortical AEPs to speech sounds and maturation, 295
- human laterality reversal AEPs, 306
- mismatch negativity and sound localization, 129

Automated analysis

- automated rat sleep analysis, 64
- automated rat sleep staging system, 52
- motor unit firing and neuromuscular disorders, 215

Autoregressive model: correction of ocular artifacts, 72

BAEPs, *see* Auditory brain-stem potentials

Beta rhythms: estimation of time delays in EEG, 198

Blink reflex: R3 component, 334

Book reviews, 84, 268, 561

Brain: lateral coherence of the ECoG, 479

Brain death

- brain death in children, 271
- EEG and brain death in children, 272, 276
- spinal reflexes in brain death, 206

Brain potentials in a memory-scanning task, 41

Brain-stem

- central conduction time in locked-in syndrome, 552
- EEG and EP study of locked-in patients, 419

Brain-stem potentials, *see* Auditory brain-stem potentials

Cerebral lesions, *see* Lesions

Cerebrovascular disease: gaps in EMG interference pattern, 225

Circadian cycles

- sleep interruption and REM-NREM cycle, 107
- thalamus and sleep-waking cycle regulation, 117

Coherence analysis

- a new method to estimate time delays in EEG, 198
- lateral coherence of the ECoG, 479

Complex partial seizures, *see* Epilepsy

Computed EEG topography, *see* Topographic mapping

Conduction

- central conduction time in locked-in syndrome, 552
- evaluation of muscle fibre conduction velocity, 544
- single fibre APs recorded at known distances, 245

Cortical lesion and thermal sensation deficit, 443

Current source

- multisource modeling of interictal spikes, 389
- of neuromagnetic responses, 499
- spike-wave complexes on source derivation, 20

Cutaneous afferents: R3 component of blink reflex, 334

Cutaneous reflexes in brain death, 206

Data processing

- automated rat sleep analysis, 64
- automated rat sleep staging system, 52
- *see also* Spectral analysis

DC-potentials during vestibular stimulation, 322

Delta rhythms: sleep and attention in normal young men, 124

Dementia and alpha rhythm frequency, 427

Depression in early stage Alzheimer, 427

Desynchronization: ECoG correlates of language, 453

Development, *see* Maturation

Diabetes: ischaemic resistance of nerves, 369

Diagnosis

- alpha rhythm frequency in early stage Alzheimer, 427
 - diagnosis of psychiatric and neurological disorders, 2, 5
 - paraclinical studies in multiple sclerosis, 433
- Dichotic listening task: human laterality reversal AEPs, 306
- Discriminant analysis of head trauma, 94
- Dorsal column nuclei recording in monkey, 353
- Dynamic contraction and myoelectric signal, 142

ECoG

- ECoG correlates of language, 453
- lateral coherence of the ECoG, 479

EEG

- alpha rhythm frequency in early stage Alzheimer, 427
- and brain death in children, 272, 276
- and EP study of locked-in patients, 419
- a new ambulatory spike and wave monitor, 157
- a new method to estimate time delays in EEG, 198
- automated rat sleep analysis, 64
- complex partial seizure evaluation, 381
- correction of ocular artifacts in EEGs, 72
- diagnosis of psychiatric and neurological disorders, 2, 5
- 3-dimensional localization of epileptic activity, 473
- distribution of sphenoidal spikes, 403
- EEG discriminant analyses of head trauma, 94
- EEG sleep patterns in man, a twin study, 279
- EEG spectra following ethanol, 179
- EEG spectra in severely dyslexic men, 30
- interburst intervals in EEGs of premature infants, 410
- neurometrics, 2, 5
- on the structure of EEG development, 10
- prognosis value of EEG in head-injured children, 85
- role of quantitative EEG topographic mapping, 2, 5
- spectra of spontaneous and evoked EEG, 188

Elderly, *see* Age

Electrical vestibular stimulation in the guinea pig, 464

Electroretinogram, *see* ERG

EMG

- EMG profile index and spastic locomotor disorder, 233
 - evaluation of muscle fibre conduction velocity, 544
 - gaps in EMG interference pattern, 225
 - motor unit firing and neuromuscular disorders, 215
 - myoelectric signal and dynamic contraction, 142
 - surface EMG in pathological fatigue, 151
- Epilepsy
- a new ambulatory spike and wave monitor, 157

- complex partial seizure evaluation, 381
- 3-dimensional localization of epileptic activity, 473
- distribution of sphenoidal spikes, 403
- feline amygdaloid kindling and sleep, 254
- multisource modeling of interictal spikes, 389
- propagation of afterdischarges, 172
- spike-wave complexes on source derivation, 20

ERG to pattern and degeneration of ganglion cells, 341

Ethanol and EEG spectra, 179

Evaluation

- complex partial seizure evaluation, 381
- EEG and brain death in children, 272, 276
- of muscle fibre conduction velocity, 544

Event-related activity

- mismatch negativity and sound localization, 129
- visual attention and subjective contours, 507

Evoked potentials

- auditory, *see* Auditory evoked potentials
- BAEPs, *see* Auditory brain-stem potentials
- brain potentials in a memory-scanning task, 41
- central conduction time in locked-in syndrome, 552
- Cz response during vestibular stimulation, 322
- EEG and EP study of locked-in patients, 419
- paraclinical studies in multiple sclerosis, 433
- pattern ERGs and degeneration of ganglion cells, 341
- somatosensory, *see* Somatosensory evoked potentials
- vestibular EPs in the guinea pig, 464
- visual, *see* Visual evoked potentials

Excitability of nerves in diabetes, 369

Eye movement

- presaccadic spikes and lateral rectus palsy, 264
- presaccadic spike potential and aging, 549
- spike potentials with large eye movements, 260

Fast Fourier transform, *see* Spectral analysis

Fatigue: surface EMG in pathological fatigue, 151

Filtering: a frequency domain adaptive filter, 362

Firing rate of motor units and neuromuscular disorders, 215

Frequency analysis, *see* Spectral analysis

Gait: EMG profile index and spastic locomotor disorder, 233

Ganglion cell degeneration and pattern ERGs, 341

Generators

- multisource modeling of interictal spikes, 389
- spike-wave complexes on source derivation, 20

Genetics

- EEG sleep patterns in man, a twin study, 279
- thalamus and sleep-waking cycle regulation, 117

Head injury

- EEG discriminant analyses of head trauma, 94
- prognosis value of EEG in head-injured children, 85

Hearing: human laterality reversal AEPs, 306

Hemiparesis

- gaps in EMG interference pattern, 225
- thermal sensation deficit and cerebral lesions, 443

Hereditary disorders, *see* Genetics

Hippocampus: propagation of afterdischarges, 172

Hoffmann reflex

- cumulative vibratory indices, 162
- spinal reflexes in brain death, 206

Infants

- brain death in children, 271, 272
- cortical AEPs to speech sounds and maturation, 295
- interburst intervals in EEGs of premature infants, 410
- prognosis value of EEG in head-injured children, 85

Infarction: EEG and EP study of locked-in patients, 419

Interburst intervals in EEGs of premature infants, 410

Interference pattern of EMG, 225

Interictal spikes: multisource modeling, 389

Intraoperative monitoring, *see* Monitoring

Ischaemic resistance of nerves in diabetes, 369

Ketamine and BAEPs in squirrel monkey, 532

Kindling phenomenon and sleep in cats, 254

Language

- brain potentials in a memory-scanning task, 41
- cortical AEPs to speech sounds and maturation, 295
- ECoG correlates of language, 453
- EEG spectra in severely dyslexic men, 30

Laterality reversal AEPs in human, 306

Lesions

- *see also* Head injury
- thermal sensation deficit and cerebral lesions, 443

Locked-in syndrome

- central conduction time in locked-in syndrome, 552
- EEG and EP study of locked-in patients, 419

Long-latency components

- human laterality reversal AEPs, 306
- R3 component of blink reflex, 334

Magnetic field: locating a current source, 499

Magnetic resonance imaging in multiple sclerosis, 433

Magnetoencephalogram

- 3-dimensional localization of epileptic activity, 473
- multisource modeling of interictal spikes, 389

Mapping, *see* Topographic mapping

Maturation

- cortical AEPs to speech sounds and maturation, 295
- on the structure of EEG development, 10
- *see also* Retardation

Memory

- brain potentials in a memory-scanning task, 41
- mismatch negativity and sound localization, 129

Methodology

- a new method to estimate time delays in EEG, 198
- automated rat sleep staging system, 52

Migraine: difference of steady-state VEPs, 285

Mismatch negativity and sound localization, 129

Models

- multisource modeling of interictal spikes, 389
- on the structure of EEG development, 10

Monitoring

- a new ambulatory spike and wave monitor, 157
- by EPs, 374, 378
- in spinal cord surgery, 373
- intraoperative monitoring, 373, 374, 378

Monkey

- BAEPs in squirrel monkey, 532
- recording from dorsal column nuclei in monkey, 353
- Motoneurone potentials with large eye movements, 260
- Motor axons ischaemic resistance in diabetes, 369
- Motor evoked potentials in locked-in syndrome, 552
- Motor unit firing rates and neuromuscular disorders, 215
- Multiple sclerosis: paraclinical studies, 433

Muscle

- evaluation of muscle fibre conduction velocity, 544
- single fibre APs recorded at known distances, 245

Myoelectric signal

- myoelectric signal and dynamic contraction, 142
- surface EMG in pathological fatigue, 151

Neurological disorders

- alpha rhythm frequency in early stage Alzheimer, 427
- paraclinical studies in multiple sclerosis, 433
- Neurometrics, 2, 5
- Neuromuscular disorders and motor unit firing, 215
- Neuropathy: ischaemic resistance of nerves in diabetes, 369
- Nociception and cerebral lesions, 443

Normal subjects

- an examination of VEP response phase, 520
- cortical AEPs to speech sounds and maturation, 295
- Cz response during vestibular stimulation, 322
- EEG sleep patterns in man, a twin study, 279
- EEG spectra following ethanol, 179
- human laterality reversal AEPs, 306
- mismatch negativity and sound localization, 129
- myoelectric signal and dynamic contraction, 142
- presaccadic spike potential and aging, 549
- R3 component of blink reflex, 334
- selective attention and BAEPs, 557
- sleep and attention in normal young men, 124
- sleep interruption and REM-NREM cycle, 107
- spectra of spontaneous and evoked EEG, 188
- spike potentials with large eye movements, 260

Occipital alpha rhythm in early stage Alzheimer, 427

Ocular artifact correction in EEGs, 72

Old age, *see* Age

Olfactory cortex: estimation of time delays in EEG, 198

Opioids: spectra of spontaneous and evoked EEG, 188

Optic nerve: pattern ERGs and degeneration of ganglion cells, 341

Optokinetic stimulation and Cz response, 322

Pain: spectra of spontaneous and evoked EEG, 188

Palsy of lateral rectus and presaccadic spikes, 264

Pattern ERGs and degeneration of ganglion cells, 341

Perceptual processes and ERP mapping, 507

- Photic stimulation: steady-state VEPs in migraine, 285
 Power spectral analysis
 – EEG discriminant analyses of head trauma, 94
 – myoelectric signal and dynamic contraction, 142
 – surface EMG in pathological fatigue, 151
 Presaccadic potential, *see* Saccade
 Preterm infants: interburst intervals in EEGs, 410
 Principal component analysis: structure of EEG development, 10
 Prognosis

 Spindles and automated rat sleep analysis, 64
 Steady-state VEPs in migraine, 285
 Swept stimulation and VEP response phase, 520
 Synchrony of the ECoG, 479

 Technique
 – a frequency domain adaptative filter, 362
 – a new ambulatory spike and wave monitor, 157
 – automated rat sleep staging system, 52
 – correction of ocular artifacts in EEGs, 72
 Template correlation: 3-dimensional localization of epileptic activity, 473
 Temporal cortex
 – distribution of sphenoidal spikes, 403
 – ECoG correlates of language, 453
 Tendon reflexes and cumulative vibratory indices, 162

Thalamus

- and the regulation of sleep-waking cycle, 117
- difference of steady-state VEPs in migraine, 285

Therapeutics in spastic locomotor disorder, 233

Thermal sensation deficit and cerebral lesions, 443

Time domain filter: correction of ocular artifacts in EEGs, 72

Topographic mapping

- cortical AEPs to speech sounds and maturation, 295
- diagnosis of psychiatric and neurological disorders, 2, 5
- ERP mapping, visual attention and subjective contours, 507
- multisource modeling of interictal spikes, 389
- neurometrics, 2, 5
- role of quantitative EEG topographic mapping, 2, 5
- spike-wave complexes on source derivation, 20

Traumatic brain injury, *see* Head trauma

Twins: EEG sleep patterns, 279

Verbal task, *see* Language

Vestibular stimulation

- Cz response during vestibular stimulation, 322
- vestibular EPs in the guinea pig, 464

Vibratory indices, 162

Vision

- brain potentials in a memory-scanning task, 41
- ERP mapping, visual attention and subjective contours, 507

Visual evoked potentials

- an examination of VEP response phase, 520
- difference of steady-state VEPs in migraine, 285

Visuomotor task, sleep and attention in normal young men, 124

Wrist: gaps in EMG interference pattern, 225
